For: APPARATUS FOR THE PRODUCTION OF CATALYTIC CRACKING
GASOLINE WITH A LOW SULPHUR CONTENT (AS AMENDED)

INFORMATION DISCLOSURE STATEMENT

Assistant Commissioner for Patents
Washington, D.C. 20231

SIR:

The Examiner is courteously requested to consider the listed references from Applicants' parent application serial number 08/936,101. Note also Patent and Trademark Office policy, as set forth in the paragraph bridging pages 600-67 and 600-68 of M.P.E.P. 03, Rev. 14, November 1992, which states:

Where the information listed is not in the English language, but was cited in a search report or other action by a foreign patent office in a counterpart foreign application, the requirement for a concise explanation of relevance can be satisfied by submitting an English language version of the search report or action which indicates the degree of relevance found by the foreign patent office. This may be an explanation of which portion of the reference is particularly relevant, to which claims it applies, or merely an "X", "Y", or "A" indication of a search report.

This Information Disclosure Statement is being submitted together with the filing of a new application; therefore, no fee is required.

Respectfully submitted,

A handwritten signature in cursive script, appearing to read "William Millen", written over a horizontal line.

I. William Millen (Reg. No. 19,544)
